

Press Release

ReFrame Solutions Joins the AWS Public Sector Partner Program

February 10, 2023

ReFrame Engage™ is a unified Constituent Engagement Platform for facilitating context aware communication and collaboration between organizations and their customers including Text Messaging, Internet Calling, Video Chat, Email, CRM, Chatbot and more...

Windsor, CT Feb 10, 2023, – [ReFrame Solutions™](#), a WSD Digital, LLC company and innovative leader in next-gen products and services enabling digital transformation, today announced that they have joined the Amazon Web Services (AWS) Public Sector Partner (PSP) Program, which helps AWS Partners grow their public sector business through alignment with AWS public sector sales, marketing, funding, capture, and proposal terms. ReFrame Solutions also completed the AWS Foundational Technical Review (FTR) of its ReFrame Engage™ Constituent Engagement as a Service Platform (CEaaS).

[ReFrame Solutions™](#) has a rich history serving government and public sector organizations with a host of innovative solutions, such as a powerful Constituent Engagement (CEaaS) Platform. The system allows public sector agencies to communicate and collaborate with their customers leveraging multi-modal integrated services such as Text Messaging, Internet Calling, Video Calls, Email, Contact Center, CRM, and more, all built on the trusted infrastructure using AWS modern technology and services.

“We’re excited to have joined the PSP Program, especially because of what that means for our customers,” said Sandy Schroeder, Managing Director for ReFrame

Engage. “Providing our customers with multi-modal communications within a powerful customer engagement platform powered by AWS is critical to the mission of helping our customers grow.”

By working with AWS, ReFrame Solutions can quickly establish a cost-effective and comprehensive customer engagement platform that is reliable, secure, scalable, and easy to use globally. In addition, AWS provides a robust set of services supporting compliance and security standards that ReFrame Solutions has acquired for its cloud infrastructure.

As a PSP Program member, ReFrame Solutions is recognized as an AWS Partner with cloud-based solutions who have experience supporting government, space, education, and non-profits around the world.
